

CHEPLAPHARM INVESTS 6 MILLION EUROS IN THE EXPANSION OF ITS GERMAN HEADQUARTERS IN GREIFSWALD – FUNDED BY OWN SOURCES ONLY

From August 2018, CHEPLAPHARM expands its Ziegelhof headquarters in the Hanseatic city of Greifswald with a new building on an area of 5,300 square meters. The extension with state-of-the-art office facilities will be completed by the end of 2019. As a result, the pharmaceutical company has enough space for a total of 250 employees on approximately 8,000 square meters.

"CHEPLAPHARM has been continuously and significantly growing for years. Thus, today and in the future, we want to make sure to offer our highly qualified employees optimally equipped office and work spaces here in Greifswald, where we feel very comfortable," reasons Sebastian F. Braun (CEO) the extensive construction project. This is a clear commitment to the location Greifswald.

316 million euros planned turnover for 2018. This is an increase of 40 percent compared to the previous year.

200 employees are currently working in the headquarters in Greifswald. 2014: 74 employees.

6 million euros will be invested in the expansion - without public subsidies.

As with comparable previous construction projects, CHEPLAPHARM realizes the extension with the help of local companies and finances the necessary investments of about 6 million euros entirely without public subsidies.

In addition, CHEPLAPHARM follows the guidelines for a careful use of resources and energy efficiency when planning new buildings. For example, charging stations for e-cars and e-bikes on the newly constructed area will be installed. Furthermore, there will be state-of-the-art conference rooms in the new building, that can be adapted to different requirements: from internal meetings of smaller groups to larger groups of up to 30 people. The meeting rooms will also be equipped with state-of-the-art presentation technology and innovative communication media.

The approximately 213 square meters large roof terrace can be used for events as well as - due to the connection to the social rooms - for socializing during the lunch break or after work.
