

Dr. Bianca Juha
CSO

To me as a medical professional, the breadth of our product portfolio is really special. Not many jobs in the pharmaceutical sector offer so much variety. We take over the most diverse, well-established product brands from pharmaceutical companies. Dealing intensively with these product brands at the end of their life cycle, exploring and extending their potential, is a wonderful and fulfilling task.

- Joined CHEPLAPHARM in 2013
- **Medical Doctor**
(Georg-August-University Göttingen)
- **Dipl.-Kaufrau / Master** in Business Administration
(Catholic University of Ingolstadt / University of Hagen)
